

# Avaliação de Disciplinas 2021-1

Disciplinas avaliadas do 1º semestre de 2021

CPA - Comissão Própria de Avaliação

Na avaliação dos componentes curriculares dos cursos superiores de Ciência da Computação, Engenharia Elétrica e Pedagogia, do primeiro semestre do ano de 2021, constatou-se que no geral, os discentes consideraram boas as práticas exercidas pelos docentes. Porém, alguns resultados chamaram atenção e a Comissão Própria de Avaliação (CPA) considera importante a investigação dos motivos que levaram a avaliação “bom” abaixo de 50% (desconsiderando a resposta “Desconheço”), são elas:

- Ciência da Computação:
  - A relação entre conteúdo desenvolvido e o que está proposto na ementa está coerente?:
    - Álgebra Linear.
  - O professor utiliza uma linguagem clara e acessível na exposição dos conteúdos?:
    - Álgebra Linear;
    - Redes de Computadores II.
  - O quanto você é dedicado aos estudos e participa ativamente das atividades no componente curricular?:
    - Álgebra Linear;
    - Redes de Computadores II.
- Engenharia Elétrica:
  - A relação entre conteúdo desenvolvido e o que está proposto na ementa está coerente?:
    - Instalações Elétricas Prediais I;
    - Máquinas Elétricas II;
    - Processamento Digital de Sinais;
    - Eletrônica de Potência II;
    - Geração, Transmissão e Distribuição de Energia Elétrica;
    - Instalações Elétricas Industriais;
    - Empreendedorismo;
  - O professor demonstra ter domínio do conteúdo do componente curricular?:
    - Máquinas Elétricas II;
    - Processamento Digital de Sinais;
    - Eletrônica de Potência II;
    - Geração, Transmissão e Distribuição de Energia Elétrica;
  - O professor utiliza uma linguagem clara e acessível na exposição dos conteúdos?:
    - Máquinas Elétricas II;
    - Processamento Digital de Sinais;
    - Eletrônica de Potência II;
    - Geração, Transmissão e Distribuição de Energia Elétrica;
    - Instalações Elétricas Industriais;
  - O professor é receptivo a perguntas e disponível para tirar dúvidas dos alunos em relação aos conteúdos?:
    - Geração, Transmissão e Distribuição de Energia Elétrica.
  - O professor orienta com clareza os trabalhos avaliativos solicitados?:
    - Eletrônica de Potência II;
    - Geração, Transmissão e Distribuição de Energia Elétrica;
    - Instalações Elétricas Industriais.
  - Os critérios de avaliação adotados estão adequados aos conteúdos trabalhados no componente curricular?:
    - Empreendedorismo.
  - O professor propicia a discussão das questões de avaliação após a divulgação dos resultados obtidos pelos alunos?:
    - Cálculo III;
    - Geração, Transmissão e Distribuição de Energia Elétrica;

- Instalações Elétricas Industriais.
- O quanto você é dedicado aos estudos e participa ativamente das atividades no componente curricular?:
  - Matemática Aplicada à Engenharia;
  - Processamento Digital de Sinais;
  - Instalações Elétricas Industriais;
  - Redes Industriais e Supervisórios;
  - Máquinas de Fluxo e Aproveitamento Hidráulico;
  - Empreendedorismo.
- Pedagogia:
  - Todas as avaliações tiveram porcentagem acima de 50%.

A seguir, seguem os gráficos da avaliação gerados pela ferramenta Google Forms.
